WORK EXPERIENCE

Deloitte

Senior Solutions Specialist

Seattle, WA
Jul 2022 - Present

Responsibilities:

Solution Architecture and Design: Develop and implement advanced technology solutions tailored to client needs, ensuring alignment with business goals and industry standards.

Client Engagement: Collaborate with clients to understand their business requirements, presenting tailored solutions to drive operational efficiency and innovation.

Project Management: Lead cross-functional teams in delivering complex projects on time and within budget, managing resources, timelines, and stakeholder expectations.

Technology Consulting: Provide strategic advice on the adoption and integration of emerging technologies, including cloud computing, AI, and machine learning.

Process Improvement: Identify opportunities for process optimization and automation, implementing best practices to enhance productivity and reduce costs.

Training and Mentorship: Mentor junior team members and conduct training sessions to build technical expertise and foster professional growth within the team.

Achievements:

Successfully led the implementation of a cloud-based solution for a major client, resulting in a 30% reduction in operational costs.

Designed and deployed a machine learning model that improved client decision-making processes, leading to a 20% increase in efficiency.

Received the Deloitte Impact Award for exceptional client service and innovative solution delivery in 2023.

Microsoft

Software Engineer

Seattle, WA
Jun 2020 - Jul2022

Responsibilities:

Software Development: Designed, developed, and maintained software applications and services, ensuring high performance, scalability, and reliability.

Collaboration: Worked closely with product managers, designers, and other engineers to define and implement new features and functionalities.

Code Review and Quality Assurance: Conducted code reviews, debugging, and testing to ensure code quality and adherence to best practices.

Technical Documentation: Created and maintained comprehensive technical documentation for software applications, APIs, and development processes.

Innovation: Participated in brainstorming sessions and contributed to the development of innovative solutions to complex technical challenges.

Continuous Improvement: Engaged in continuous learning and professional development to stay updated with the latest industry trends and technologies.
